Submission link: https://lms.skoltech.ru/courses/6423/assignments/40713

Presentation format: 20 minutes for presentation + 20 minutes for questions.
Order of the topics could be adapted, but the presentation flow has to be logical and clearly understandable.

PDR deliverables:

1. Project overview and goals
2. Proposed solution and concept of operations (ConOps): main idea and how the system would be used
3. Stakeholder needs and a clear set of technical requirements
4. System architecture and MBSE: Arcadia-Capella model covering stakeholder analysis, Operational Analysis, System Analysis and Logical Architecture
5. Interface management plan
6. Compliance check with maritime regulations
7. Risk analysis
8. Prototyping plan
9. System verification and validation plans
10. Configuration management and data management baseline plan
11. Project management plan, including the work breakdown structure (WBS)
